The Rift in the Void

Only the missing mystical sword, Starsoul, can close the rift in the Void...if it can be found.

It will take more than walls, locked gates and a mother's wishes to keep Divian, the crown prince of Teresia, on the protected path to becoming ruler after the death of his father. His adventurous spirit -- and the questionable notion that only he can prevent the subjugation of the Seven Kingdoms by the returned Demon God -- sends him down a different and far more dangerous path.

Divian must embrace his magical heritage, learn the ways of channeling and retrieve Starsoul, the mystical weapon given to the King of Teresia by the god Borin to stop the Demon God and close the rift in the Void.

But Starsoul was lost long, long ago...the minions of the Demon God want to make sure that Divian won't live to find it.
